## Progressive Specifications

Max Single-Line Base Game Win  
(Progressive Base, if Progressive Enabled)

125,000 times bet per line

Max-Bet Odds : 835,905

Progressive ID : 496

### Default progressive contributions

Primary :	0.50%
1st Reserve :	0.10%
2nd Reserve :	0.00%
	0.60%

The progressive system contains three different, configurable contribution rates:

The Primary rate sets the percentage of coin-in that goes directly to the progressive meter.

The 1st Reserve rate sets the percentage of coin-in that gets added to the progressive meter following a progressive win.

The 2nd Reserve rate sets the percentage of coin-in that gets added to the 1st Reserve following a progressive win.

The theoretical payback percentage listed in the PAR sheet is the non-progressive payback to the player. The progressive base amount is included in the payback calculation since it is the jackpot pay when the progressive is disabled.

By enabling the progressive, the theoretical max-bet payback is exactly equal to the max-bet payback listed in the PAR sheet plus the total of the contribution rates.

Winning PowerXStream Combinations						
<p>A PowerXStream winning combination occurs when the same symbol lands in any position on consecutive reels.  All PowerXStream wins pay left-to-right and right-to-left, on adjacent reels, starting with the leftmost or rightmost reel.  The award is multiplied by the number of symbols that occur per reel in the winning combination.  Only highest paying PowerXStream combination for each symbol is paid per spin.</p>					Pays (< Max Bet)	Pays (Max Bet)

### Free Spins Bonus

Each winning combination of one BN symbol on reels 2, 3, and 4 awards 8 free spins. Multiple combinations can occur in a single game.

The maximum number of spins awarded in a single game is 128. Additional Free Spins can be won during free spin play.

The Free Spins Bonus is played on a different set of reels using the same payable as the '< Max Bet' base game payable.
